

REMARKS

The Assignee respectfully submits this amendment and request entry thereof pursuant to 37 C.F.R. § 1.312. Specifically, by way of this amendment, the Assignee has amended the cross-reference to the parent application to reflect the patent number of the same. No new matter has been added. The Assignee respectfully requests that the amendments be entered before issuance of the present application.

Applicants' Summary of Examiner Interview

Examiner Le telephoned the undersigned and requested authorization to amend certain of the claims via Examiner's Amendment to include the word "non-transient." After discussion to understand the meaning of the proposed words, the Examiner agreed that the amendment to include "non-transient" would exclude propagating signals but would not exclude any type of physical memory (e.g., random access memory, read only memory, solid state memory, hard drives, etc) or tangible media (e.g., DVD's, CD's, magnetic media, optical media, etc) from the scope of the claims. Based on this understanding of the meaning of "non-transient," the undersigned agreed to the proposed inclusion of "non-transient."

Conclusion

The Commissioner is hereby authorized to charge any deficiency in the amount enclosed (if any) or any additional fees which may be required during the pendency of this application to Deposit Account No. 50-2455.
